Ouick Start Guide

This product meets applicable national SAR limits of 1.6 W/kg. The specific maximum SAR values can be found on page 18 of this user guide.

When carrying the product or using it while worn on your body, either use an approved accessory such as a holster or otherwise maintain a distance of 1.0 cm from the body to ensure compliance with RF exposure requirements. Note that the product may be transmitting even if you are not making a phone call.

The mobile phone is in compliance with the requirement of EN 60950-1: 2006 amendment A12: 2011. There will appear a warning box when the volume level is over 4. If the user selects left soft key in the warning box, the volume can be increased and the phone will repeat the acknowledgement more than once every 20h of cumulative listening time

PROTECT YOUR HEARING

To prevent possible hearing damage, do not listen at high volume levels for long periods. Exercise caution when holding your device near your ear while the loudspeaker is in use.

From the main menu select "Message" to create text message. You can type a message send it to a recipient in the SIM card directory. While writing a message, select "Options" to access all the messaging options.

Profiles

Safety and use.....

We recommend that you read this chapter carefully before using your phone. The manufacturer disclaims any liability for damage, which may result as a consequence of improper use or use contrary to the instructions contained herein

TRAFFIC SAFFTY:

Given that studies show that using a mobile phone while driving a vehicle constitutes a real risk, even when the hands-free kit is used (car kit, headset...), drivers are requested to refrain from using their mobile when the vehicle is not parked.

When driving do not use your phone and headphone to listen to music or to the radio Using a headphone can be dangerous and forbidden in some areas When switched on your phone emits electromagnetic waves that can interfere with the vehicle's electronic systems such as ABS anti-lock brakes or airbags. To ensure that there is no problem:

- do not place your phone on top of the dashboard or within an airbag deployment area.
- check with your car dealer or the car manufacturer to make sure that
- the dashboard is adequately shielded from mobile phone RF energy.

CONDITIONS OF USE:

Disclaimer

telephone or specific operator services.

You are advised to switch off the telephone from time to time to optimise its performance

Switch the phone off before boarding an aircraft.

Switch the phone off when you are in health care facilities, except in designated areas As with many other types of equipment now in regular use mobile telephones can interfere with other electrical or electronic devices or equipment using radio frequency

Switch the phone off when you are near gas or flammable liquids, Strictly obey all signs and instructions posted in a fuel depot, petrol station, or chemical plant, or in any potentially explosive atmosphere.

When the phone is switched on, it should be kept at least 15 cm from any medical device such as a pacemaker, a hearing aid or insulin pump, etc. In particular when using the phone, you should hold it against the ear on the opposite side to the device, if any,

To avoid hearing impairment, pick up the call before holding your phone to your ear Also move the handset away from your ear while using the "hands-free" mode because the amplified volume might cause hearing

Do not let children use the phone and/or play with the telephone and accessories without supervision When replacing the cover please note that your phone may contain

substances that could create an allergic reaction.

There may be certain differences between the user manual description

and the phone's operation, depending on the software release of your

TCI Communication shall not be held legally responsible for such

differences if any nor for their potential consequences which

responsibility shall be borne by the operator exclusively. This handset may

contain materials, including applications and software in executable or

source code form, which is submitted by third parties for inclusion in this

handset ("Third Party Materials"). All third party materials in this handset

are provided "as is", without warranty of any kind, whether express or

implied, including the implied warranties of merchantability, fitness for a

particular purpose or use/third party application, interoperability with

other materials or applications of the purchaser and non-infringement

of copyright. The purchaser undertakes that TCL Communication has

complied with all quality obligations incumbent upon it as a manufacturer

of mobile devices and handsets in complying with Intellectual Property

rights. TCL Communication will at no stage be responsible for the

the maximum extent permitted by law, TCL Communication disclaims

all liability for any claims, demands suits or actions, and more specifically

- but not limited to - tort law actions under any theory of liability

arising out of the use, by whatever means, or attempts to use, such

Third Party Materials. Moreover, the present Third Party Materials, which

are provided free of charge by TCL Communication, may be subject to

paid updates and upgrades in the future; TCL Communication waives

any responsibility regarding such additional costs, which shall be borne

exclusively by the purchaser. The availability of the applications may

vary depending on the countries and the operators where the handset

is used; in no event shall the list of possible applications and software

provided with the handsets be considered as an undertaking from TCI

Communication: it shall remain merely as information for the purchaser

Therefore, TCL Communication shall not be held responsible for the lack

of availability of one or more applications wished for by the purchaser, as

its availability depends on the country and the operator of the purchaser

TCL Communication reserves the right at any time to add or remove

Third Party Materials from its handsets without prior notice; in no event shall TCL Communication be held responsible by the purchaser for any

consequences that such removal may have on the purchaser regarding

the use or attempt to use such applications and Third Party Materials.

Always handle your phone with care and keep it in a clean and dust-free

Do not allow your phone to be exposed to adverse weather or conmental conditions (moisture, humidity, rain, infiltration of liquids, dust, sea air, etc). The manufacturer's recommended operating temperature range is -10°C to +55°C.

At over 55°C the legibility of the phone's display may be impaired, though this is temporary and not serious Emergency call numbers may not be reachable on all cellular networks You

should never rely only on your phone for emergency calls. Do not open, dismantle or attempt to repair your mobile phone yourself

Do not drop, throw or bend your mobile phone.

Do not use the phone if the glass made screen, is damaged, cracked or Do not paint it.

Use only batteries, battery chargers, and accessories which are recommended by TCL Communication Ltd and its affiliates and are compatible with your phone model TCL Communication Ltd and its affiliates disclaim any liability or damage caused by the use of other chargers or batteries.

Remember to make back-up copies or keep a written record of all

important information stored in your phone. Some people may suffer epileptic seizures or blackouts when exposed to

flashing lights. These seizures or blackouts may occur even if a person never had a previous seizure or blackout. If you have experienced seizures or blackouts, or if you have a family history of such occurrences, please consult your doctor before enabling a flashing-lights feature on your phone.

Parents should monitor their children's use of video games or other features that incorporate flashing lights on the phones. All persons should discontinue use and consult a doctor if any of the following symptoms occur: convulsion, eye or muscle twitching, loss of awareness, involuntary ements, or disorientation. To limit the likelihood of such symptoms. please take the following safety precautions:

- Do not play or use a flashing-lights feature if you are tired or need sleep. Take a minimum of a 15-minute break hourly.
- Play in a room in which all lights are on

15

- Play at the farthest distance possible from the screen.
- If your hands, wrists, or arms become tired or sore while playing, stop and rest for several hours before playing again.
- If you continue to have sore hands, wrists, or arms during or after playing, stop the game and see a doctor.

When you play games on your phone, you may experience occasional discomfort in your hands arms, shoulders, neck, or other parts of your body Follow the instructions to avoid problems such as tendinitis, carpal tunnel syndrome, or other musculoskeletal disorders.

Please note that you must respect the laws and regulations in force in your jurisdiction or other jurisdiction(s) where you will use your mobile phone regarding taking photographs and recording sounds with your mobile telephone Pursuant to such laws and regulations it may be strictly forbidden to take photographs and/or to record the voices of other people or any of their personal attributes, and duplicate or distribute them, as his may be considered to be an invasion of privacy It is the user's sole sponsibility to ensure that prior authorisation be obtained if necessary in order to record private or confidential conversations or take a photograph of another person the manufacturer the seller or vendor of your mobile phone (including the operator) disclaim any liability which may result from the improper use of the mobile phone

Before removing the battery from your phone, please make sure that the phone is switched off

Observe the following precautions for battery use:

- Do not attempt to open the battery (due to the risk of toxic fumes and
- Do not puncture, disassemble or cause a short-circuit in a battery.
- Do not hurn or dispose of a used battery in household rubbish or store it at temperatures above 60°C

Batteries must be disposed of in accordance with locally applicable environmental regulations. Only use the battery for the purpose for which it was designed. Never use damaged batteries or those not recommended This symbol on your telephone, the battery and the accessories means that these products exists the symbol on your telephone.

the end of their life: - Municipal waste disposal centres with specific bins for these

items of equipment. - Collection bins at points of sale

They will then be recycled, preventing substances being disposed of in the onment, so that their components can be reused. In European Union countries:

These collection points are accessible free of charge.

All products with this sign must be brought to these collection points. In non European Union jurisdiction

Items of equipment with this symbol are not to be thrown into ordinary bins if your jurisdiction or your region has suitable recycling and collection facilities; instead they are to be taken to collection points for them to be recycled. CAUTION: RISK OF EXPLOSION IF BATTERY IS REPLACED BY AN

INCORRECT TYPE, DISPOSE OF USED BATTERIES ACCORDING TO THE INSTRUCTIONS.

Warranty.....

(12) months (1) from the date of purchase as shown on your original invoice eries (2) and accessories sold with your phone are also warranted against any defect which may occur during the first six (6) months (1) from the date of purchase as shown on your original invoice.

Your phone is warranted against any defect or malfunctioning which may

occur in conditions of normal use during the warranty period of twelve

In case of any defect of your phone which prevents you from normal use thereof, you must immediately inform your vendor and present your phone with your proof of purchase

If the defect is confirmed your phone or part thereof will be either replaced or repaired, as appropriate. Repaired phone and accessories are entitled to a one (1) month warranty for the same defect. Repair or replacement may be carried out using reconditioned components offering equivalent

ability or failure of the Third Party Materials to operate on this This warranty covers the cost of parts and labor but excludes any other handset or in interaction with any other devices of the purchaser. To

The warranty period may vary depending on your country.

and for approximately 200 more recharges.

The life of a rechargeable mobile phone battery in terms of conversation

time standby time, and total service life, will depend on the conditions of use and network configuration. Batteries being considered expendable supplies, the specifications state that you should obtain optimal performance for your phone during the first six months after purchase

This warranty shall not apply to defects to your phone and/or accessory due to (without any limitation): 1) Non-compliance with the instructions for use or installation, or with

- technical and safety standards applicable in the geographical area where
- 2) Connection to any equipment not supplied or not recommended by TCL Communication Ltd. 3) Modification or repair performed by individuals not authorised by TCL
- Communication Ltd or its affiliates or your vendor.
- 4) Modification, adjustment or alteration of software or hardware performed by individuals not authorized by TCL Communication Ltd,
- 5) Inclement weather, lightning, fire, humidity, infiltration of liquids or foods. chemical products, download of files, crash, high voltage, corrosion,

Your phone will not be repaired in case labels or serial numbers (IMEI) have been removed or altered.

There are no express warranties, whether written, oral or implied, other than this printed limited warranty or the mandatory warranty provided by your country or jurisdiction.

In no event shall TCL Communication Ltd or any of its affiliates be liable for indirect, incidental or consequential damages of any nature whatsoever, including but not limited commercial or financial loss or damage, loss of data or loss of image to the full extent those damages can be disclaimed by law.

Some countries/states do not allow the exclusion or limitation of indirect, incidental or consequential damages, or limitation of the duration of implied warranties, so the preceding limitations or exclusions may not apply to you.

CHARGERS

Body-worn SAR testing has been carried out at a separation distance of 1.0 cm. To meet RF exposure guidelines during body-worn operation, the Mains powered chargers will operate within the temperature range of: vice should be positioned at least this distance away from the body. 0°C to 40°C

The chargers designed for your mobile phone meet with the standard for safety of information technology equipment and office equipment use. They are also compliant to the ecodesign directive 2009/125/FC. Due to different applicable electrical specifications, a charger you purchased in one jurisdiction may not work in another jurisdiction They should be used for this nurnose only

Due to the used enclosure material the mobile phone shall only be connected to a USB Interface of version 2.0 or higher. The connection to so called power LISR is prohibited The adapter shall be installed near the equipment and shall be easily accessible. This charger is for indoor use only.

PADIO WAVES

Proof of compliance with international standards (ICNIRP) or with European Directive 1999/5/EC (R&TTE) is required of all mobile phone models before they can be not on the market The protection of the health and safety for the user and any other person is an essential requirement of these standards or this directive

THIS DEVICE MEETS INTERNATIONAL GUIDELINES FOR EXPOSURE TO RADIO WAVES

Your mobile device is a radio transmitter and receiver It is designed not to exceed the limits for exposure to radio waves (radio frequency electromagnetic fields) recommended by international guidelines. The guidelines were developed by an independent scientific organization (ICNIRP) and include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The radio wave exposure guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices

Tests for SAR are conducted using standard operating positions with the device transmitting at its highest certified power level in all tested frequency bands. The highest SAR values under the ICNIRP guidelines for

was recorded.			
Maximum SAR for this model and conditions under which it was recorded.			

Head SAR	GSM900	0.686 W/kg
Body-worn SAR	GSM900	0.360 W/kg

During use, the actual SAR values for this device are usually well below the values stated above. This is because, for purposes of system efficiency and to minimize interference on the network, the operating power of your mobile device is automatically decreased when full power is not needed for the call. The lower the power output of the device, the lower its SAR value.

Troubleshooting.....

17

Before contacting the service centre, you are advised to follow the

- You are advised to fully charge (() the battery for optimal
- Avoid storing large amounts of data in your phone as this may affect
- You can use reset by press power key + A.ALL User phone data: contacts and messages will be lost permanently.

and carry out the following checks:

My phone is frozen or cannot switch on

- Check the battery contacts, remove and reinstall your battery, then turn your phone on
- Check the battery power level, charge for at least 20 minutes.
- · If it still does not work, please reset the phone using the Power key

My phone has not responded for several minutes nove and re-install the battery, then restart the phone.

My phone turns off by itself

- Check that your screen is locked when you are not using your phone, and make sure the Power key is not mis-contacted due to unlocked screen.
- Check the battery charge level.
- If it still does not work, please use User Data Format to reset the

My phone cannot charge proper

- Make sure you are using an ALCATEL ONETOUCH battery and the charger from the box.
- Make sure your battery is inserted properly and clean the battery contact if it's dirty. It must be inserted before plugging in the charger. Make sure that your battery is not completely discharged; if the
- battery power is empty for a long time, it may take around 20 minutes to display the battery charger indicator on the screen. Make sure charging is carried out under normal conditions (0°C
- When abroad, check that the voltage input is compatible

Invalid SIM card

18

 Make sure the SIM card has been correctly inserted (see "Inserting or removing the SIM card").

If you are not using an approved accessory ensure that whatever product

is used is free of any metal and that it positions the phone the indicated

Organizations such as the World Health Organization and the US Food and

Drug Administration have stated that if people are concerned and want to

reduce their exposure they could use a hands-free device to keep the phone

away from the head and body during phone calls, or reduce the amount of

Additional information about electromagnetic fields and public health are

Your telephone is equipped with a built-in antenna. For optimal operation,

As mobile devices offer a range of functions, they can be used in positions

other than against your ear. In such circumstances the device will be

compliant with the guidelines when used with headset or usb data cable.

If you are using another accessory ensure that whatever product is used

is free of any metal and that it positions the phone at least 1.0 cm away
